Characteristics:

- Rated Voltage EL 250 V - 320 Vac
- Rated frequency 50 / 60Hz
- Operating class 1.67 %
- Climatic category -25 C° / +75 C°
- Loss factor <= 0.10 typical value
- Case Pla-PB
- Terminals FD

Application:

These electrolytic capacitors have high capacitance (in  $\mu\text{F}$  value), able to provide an high starting torque to motor.
