

## Image SHT sleeving

### Specifications :

- Temperature Class C
- Continuous working temperature from -60°C to + 450°C
- Fireproof
- Very flexible
- Permeable

### Composition :

SHT sleeving is a protective sleeving braid made of high-temperature-treated fiberglass.  
(White color)

### Application :

SHT sleeving is used in the electrical industry, generally in a high-temperature environment, in household appliances, for sheathing cable bundles subjected to heat, for cooking appliances, ovens, furnaces, electrothermal machines...

## SHT sleeving characteristics

Model	Diameter (mm)	Packaging	Unit (m)
G SHT1	1	Roll of 100 m	Meter or Roll
G SHT2	2		
G SHT3	3		
G SHT4	4		
G SHT5	5		
G SHT6	6		
G SHT8	8		
G SHT10	10		

## SHT sleeving characteristics

Model	Diameter (mm)	Packaging	Unit (m)
G SHT12	12	Roll of 50 m	Meter or Roll
