

Image SILICONE SLEEVING

Application:

SILICONE sleeving is used in the electromechanical industry (motors, transformers, generators...), in the lighting and automotive industries...

Composition:

SILICONE sleeving is a fiberglass sleeving coated with silicone rubber, with very good PVC sleeving dielectric characteristics. (Brick Red color)

Specifications:

- Temperature Class C
- Continuous working temperature from -60°C to + 250°C
- Dielectric resistance 4000 V
- Very flexible
- Self-extinguishing
- Good mechanical resistance
- Good UV resistance
- waterproof

SILICONE sleeving characteristics

Model	Diameter (mm)	Packaging	Unit (m)
G1S	1	Roll of 100 m	Meter or Roll
G2S	2		
G3S	3		
G4S	4		
G5S	5		
G6S	6		

SILICONE sleeving characteristics

Model	Diameter (mm)	Packaging	Unit (m)
G8S	8	Roll of 50 m	Meter or Roll
G10S	10		
G12S	12		
G14S	14		
G16S	16	Roll of 25 m	Meter or Roll
G18S	18
